Engagement Closeout Report

Engagement ID: eng-03

Client: Meridian Insurance

Client profile: UK specialist insurer

Sector / domain: document intelligence

Region: UK

Delivered: 2026

Team size: 6 people

Duration: 5 months

1. The Challenge

Claims handlers spent hours manually keying data from scanned claim forms and supporting documents.

2. Our Approach

An OCR and extraction pipeline that reads scanned claims, extracts structured fields, and routes low-confidence cases to human review.

3. Technology

Python, Tesseract, FastAPI, React

4. Outcomes

- manual keying time reduced 62%
- straight-through processing rate increased to 71%
