Engagement Closeout Report

Engagement ID: eng-05

Client: Delta Payments

Client profile: Netherlands payments provider

Sector / domain: cloud & observability

Region: NL

Delivered: 2025

Team size: 5 people

Duration: 4 months

1. The Challenge

An underused observability platform cost significant licence spend while incidents still took hours to diagnose.

2. Our Approach

An observability maturity assessment, followed by instrumentation of critical payment paths and consolidation of dashboards and alerting.

3. Technology

Datadog, Kubernetes, Go, Terraform

4. Outcomes

- mean time to detect reduced 55%
- licence spend reduced by 30% through consolidation
