Duration: 6 months

1. The Challenge

New DORA operational-resilience requirements demanded evidence of ICT risk controls the bank could not readily produce.

2. Our Approach

A control-evidence platform mapping ICT risks to controls, with automated evidence collection and an auditor-facing view.

3. Technology

Java, Spring Boot, PostgreSQL, React

4. Outcomes

- evidence collection effort reduced 70%
- audit findings closed 40% faster
