Engagement Closeout Report

Engagement ID: eng-09

Client: Cedar Bank

Client profile: GCC corporate bank

Sector / domain: data platform

Region: GCC

Delivered: 2026

Team size: 6 people

Duration: 5 months

1. The Challenge

Corporate onboarding required manually assembling entity profiles from dozens of scattered documents.

2. Our Approach

An entity-profile extraction pipeline consolidating corporate documents into a single verified profile.

3. Technology

Python, React, PostgreSQL

4. Outcomes

- onboarding time reduced from 12 days to 4 days
- data entry errors reduced 65%
