

BGTS INTERNATIONAL

Engagement Closeout Report

Engagement ID: eng-10

Client: Amstel Trust

Client profile: Netherlands private bank

Sector / domain: core banking

Region: NL

Delivered: 2024

Team size: 11 people

Duration: 9 months

1. The Challenge

A legacy reservation and account platform lacked API access, blocking digital channel development.

2. Our Approach

A hexagonal ports-and-adapters wrapper exposing governed APIs over the legacy core, allowing incremental replacement.

3. Technology

Java, Spring Boot, Kafka

4. Outcomes

- first digital channel launched in 4 months
