Engagement Closeout Report

Engagement ID: eng-11

Client: Pera Yatırım

Client profile: Turkish investment firm

Sector / domain: cloud & observability

Region: TR

Delivered: 2025

Team size: 4 people

Duration: 3 months

1. The Challenge

Deployments were manual and error-prone, with releases taking a full weekend of engineering time.

2. Our Approach

A CI/CD pipeline with automated testing and blue-green deployment.

3. Technology

Kubernetes, Terraform, Go

4. Outcomes

- deployment time reduced from 2 days to 25 minutes
- failed releases reduced 90%
